- **Engaging communities**
- **Workforce development**

24,000 hours of training delivered to 850 health care workers across Brooklyn

Transforming Care Transitions

As CCB strengthens relationships with partners and refines program interventions, we're seeing measurable, improved outcomes.

30,000
Patients

engaged in hospital-based care transitions interventions

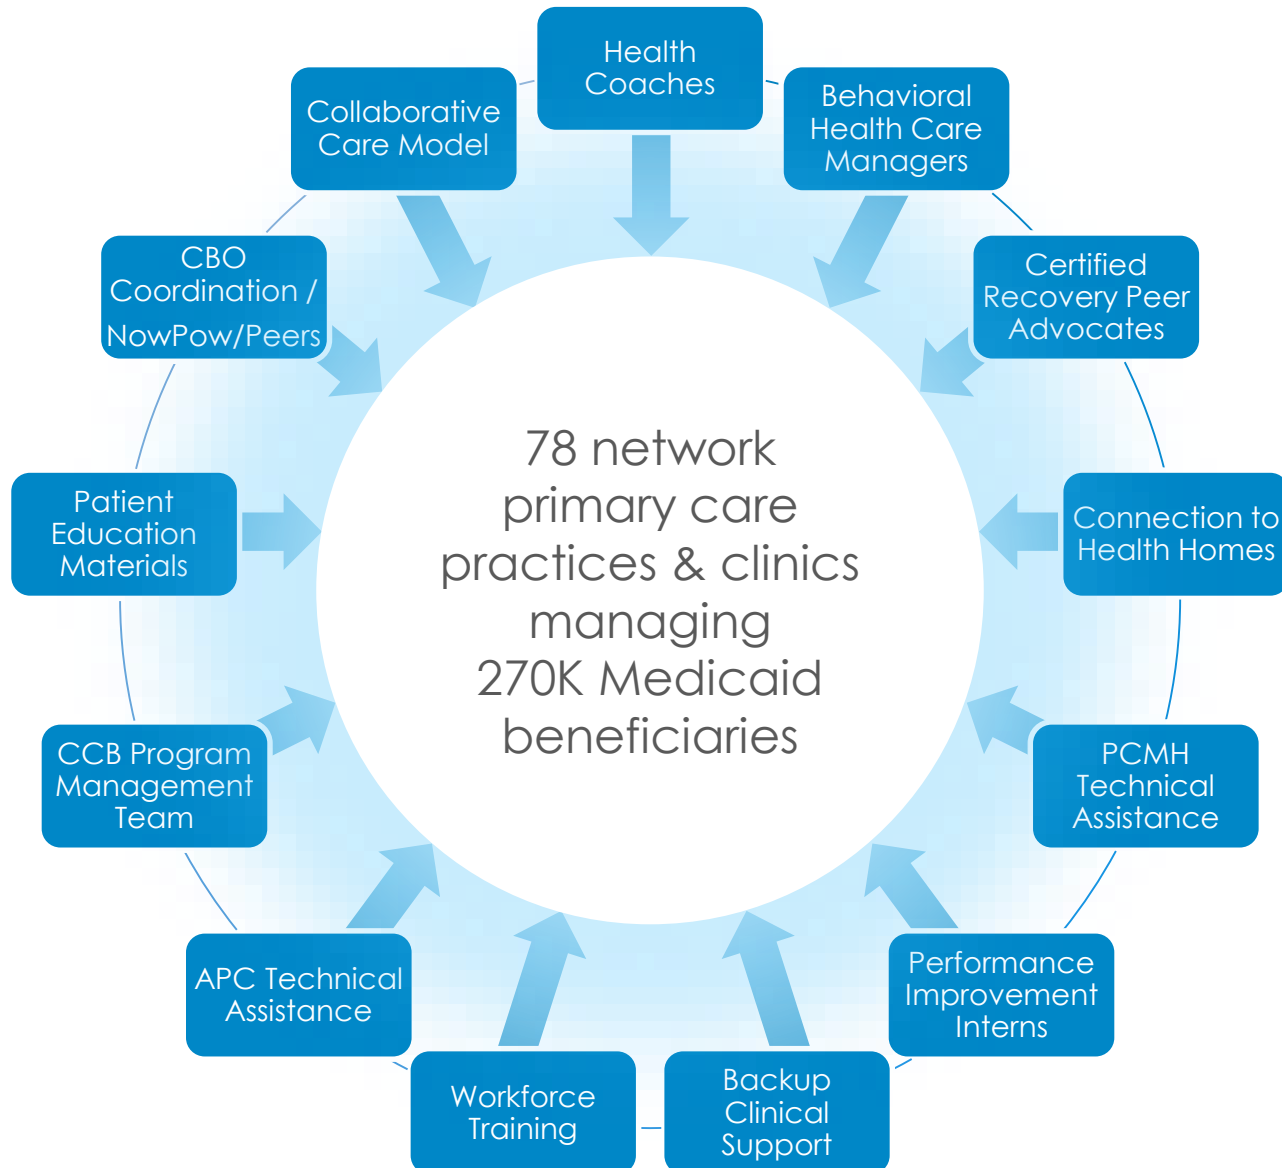

Community-
Based Support

health coaches, Health Homes, peers, legal assistance, CBOs, social services and advocacy

Measureable
Results

preliminary analysis of care transitions intervention demonstrates significant decreases in ER visits and admissions to Brooklyn hospitals

Transforming Primary Care

Network Management & Support

CCB Central Services Organization

- Program Implementation
- Information Technology
- Compliance
- Analytics
- Contracting
- Finance, Accounting & Audit
- Help Desk

The *Future* is Now

CCB is leveraging DSRIP and other investments to support healthy communities across Brooklyn

Contributions to and support for *Vital Brooklyn*

- Establishing baseline measures and target outcomes
- Convening stakeholders and assisting with implementation

Collaboration with SUNY Downstate

- Brooklyn-based academic strategy

Community-based planning

- Participatory Action Research (PAR)
- Communities of Opportunity

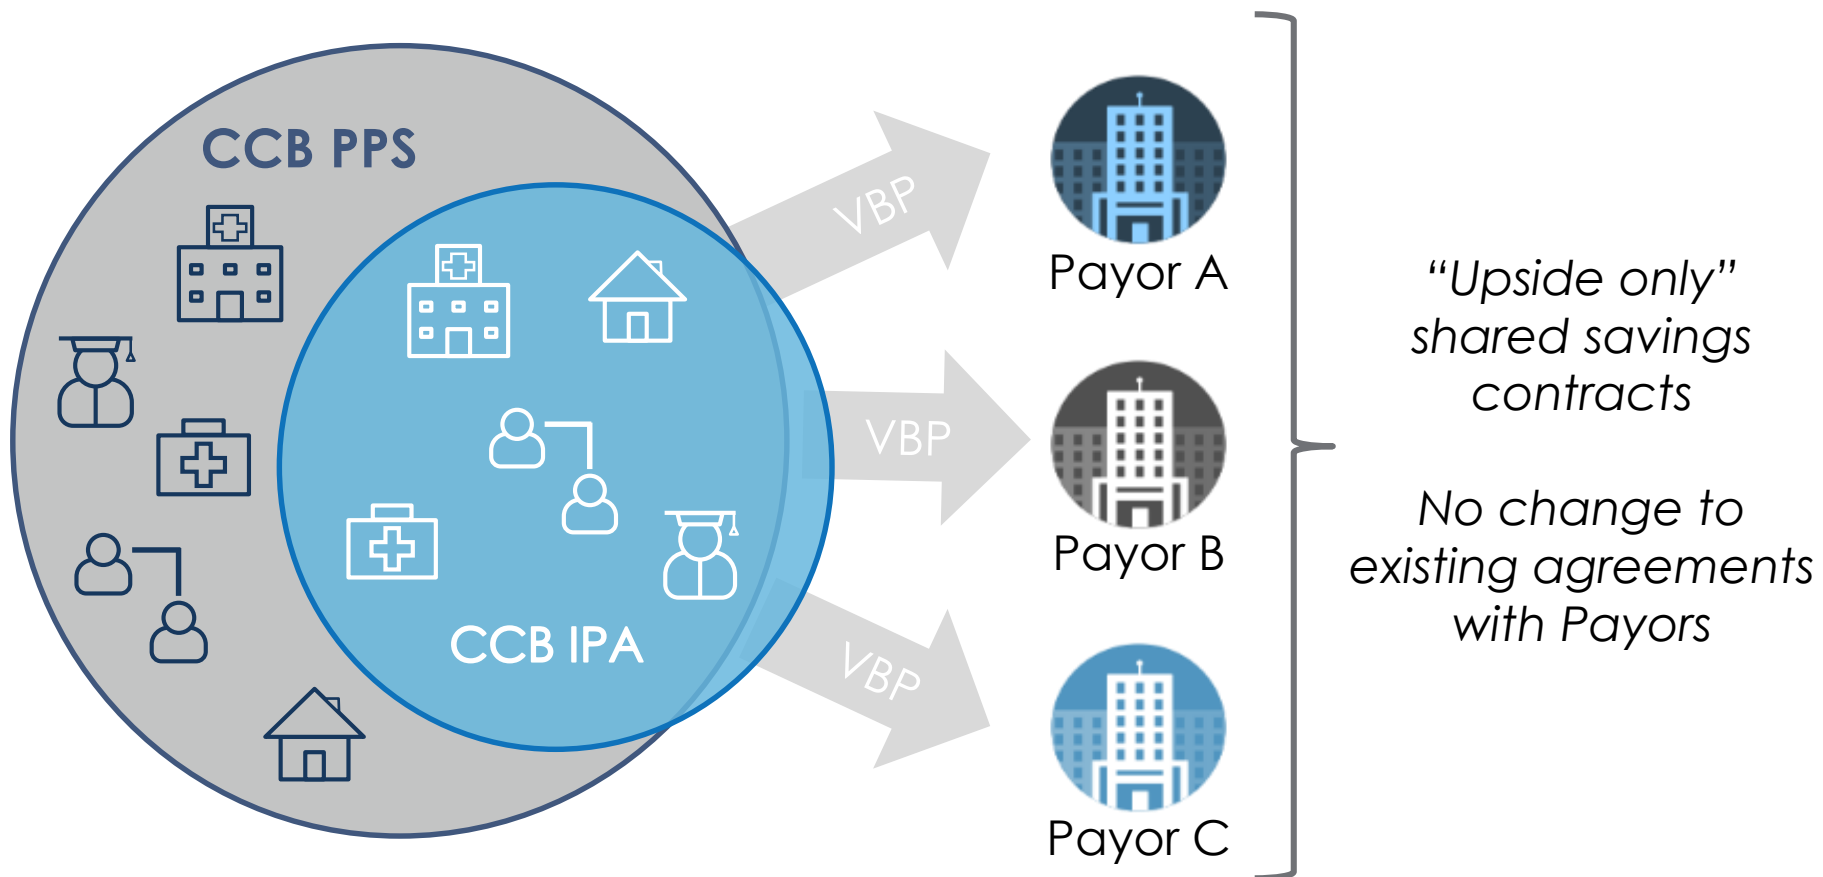

Care management

- Building on success of federal innovation award and Health Home model

Formation of a contracting entity to advance VBP initiatives

Community Care of Brooklyn IPA

An integrated network of health and social services partners committed to improving the health and well-being of diverse communities across Brooklyn, keeping care local wherever and whenever possible.

Benefits to Brooklyn Partners and Communities

Thank You
